## Wirewin CAT6A Securelock Patch Cord, S/FTP, LSZH, grey with black connector

---

### DESCRIPTION

The special Wirewin Securlock plug prevents unintentional unplugging of the patchcord connection. This will increase your network security on the lowest layer, the cabling layer. You need to use a special key to open the connector (not included with the cable).

Wirewin® patch cables of category 6A comply with the values according to ISO / IEC 11801 Ed.2. This allows a data transfer of 10 GBit / s. Category 6A is specified with 500MHz. The cable for these patch cables is double shielded. Each pair is in its own foil shielding and above is again a braid shielding. This structure is often referred to as PIMF (pairs in metal foil / pairs in metal foil) or as S / FTP. The jacket of these cables is made of halogen-free material and therefore is flame-resistant. All Wirewin® KAT6A patch cables are equipped with a lifetime warranty!

### FEATURES

- Category 6A patchcable
- Shield: S/FTP shielded
- 4- pairs twisted
- Wires: AWG26 100% copper
- 50 µm Gold coating on the Connector
- Outer Diameter: 6.0 mm
- Coating: LSZH
- DSX 8000 Fluke Channel tested (ISO/IEC channel)

## Wirewin CAT6A Securelock Patch Cord, S/FTP, LSZH, grey with black connector

### PRODUCT FEATURES

Pining	TIA/EIA 568 B
Color	Black
Cable Length	0.30 m / 0.50 m / 1.0 m / 1.5 m / 10.0 m / 15.0 m / 2.0 m / 2.5 m / 20.0 m / 3.0 m / 5.0 m / 7.0 m / 7.5 m
Type of Cable	4x2xAWG26/7
Category	KAT6A
Coating	LSZH
Shield	S/FTP shielded

### APPLICATION

- Increases network security
- Ideal for critical connections that should not be unplugged under any circumstances
- For server connections, NAS, storage or central router connections but also for all other important network ports
- Prevents unintentional disconnections
