

Snow Radome Cover

Durable, snap-on snow cover for the airFiber 60 LR radio.

The Snow Radome Cover is a highly durable snow cover designed to help airFiber60 LR (AF60 LR) radios withstand harsh winter temperatures and conditions. Manufactured from a single piece of polycarbonate, this radome cover easily snaps onto a AF60 LR radio without obstructing the built-in LEDs that indicate key device status and configuration information.

Mechanical

Dimensions	Ø414 x 165.1 mm (Ø16.3 x 6.5")
Weight	570 g (1.26 lb)
Enclosure material	UV stabilized polycarbonate
