## MULTIPACK FOR CAT6<sub>A</sub> SLIMPATCHCORDS SHIELDED, ROUND

engineered in austria 

SLIM Patch Cords Multipack - The smart solution for fast, tidy and and environmentally friendly network installations

Our SLIM patch cord multipack solution will revolutionize your workflow when working with copper patch cords!

With this innovative packaging solution, you get 50 to 90 high quality patch cords in a compact box - ideal for installations in data centers or network cabinets. Each cord is ready to use without individual packaging or cumbersome cord ties. This saves valuable time and reduces plastic waste.

Packaging for  
0.1 / 0.15 m cords

Packaging for  
0.2 / 0.25 / 0.35m cords

Packaging for  
0.5 / 1.0 / 1.5 / 2.0 / 3.0m cords

### **Sustainable and green:**

Our packaging is completely plastic-free. No plastic film, no cord ties - simply a clean solution for the environment. With the SLIM Multipack, you are actively helping to reduce plastic waste.

### **Save time and work more efficiently:**

With SLIM Multipack, you no longer have to laboriously unpack each cord and remove cord ties. Instead, you open the box and start installing immediately. Instant installation. As an installer, you save a lot of valuable time and don't have to waste time unpacking patch cords. With just 50 cords, you can save 15-20 minutes, and the more cords you have, the more time you can spend on other tasks.

### **Perfect cord lengths for tidy cabling:**

Tidiness and clarity are essential in network closets. That's why we offer the widest selection of short cord lengths on the market, ideal for neat, tidy cabling. The following lengths are available up to 50 cm:

10 cm, 15 cm, 20 cm, 25 cm, 35 cm and 50 cm.

These short lengths are perfect for creating connections without unnecessary excess lengths and keeping your network closet clean and efficient. Download our white paper to see how you can design for short patch cord lengths in the closet.

For longer patch cords, we also offer multipacks in 1.0m, 2.0m and 3.0m lengths..

### **High Performance for Demanding Networks:**

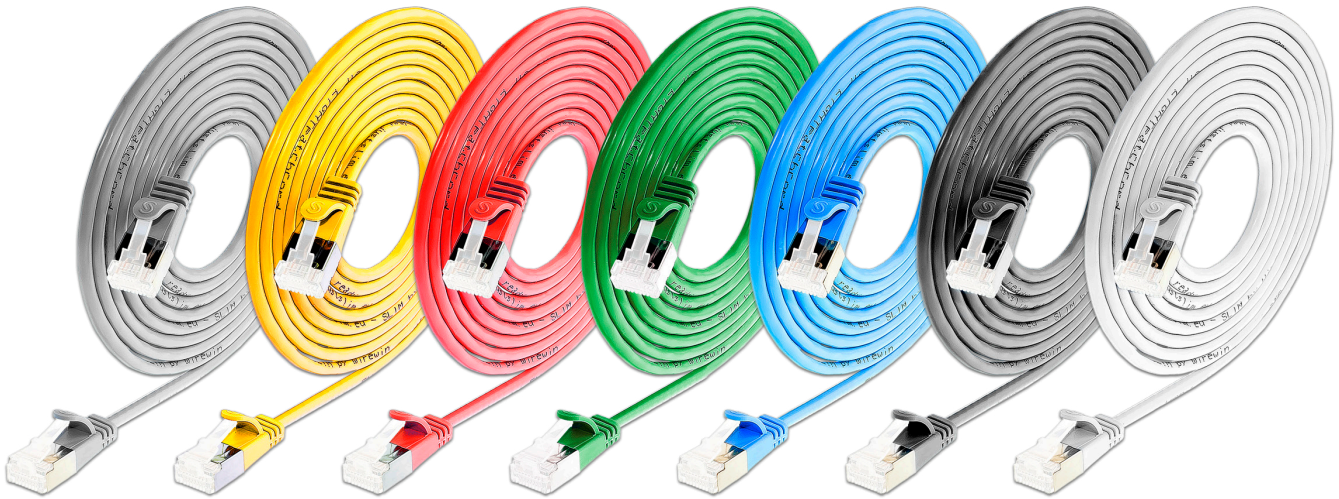

All SLIM patch cords comply with the Category 6A standard and are therefore optimized for 10 Gigabit Ethernet and Power over Ethernet (PoE) applications. Whether for data transmission or power supply, our cords offer reliable performance even under demanding conditions.

### **Another highlight: the indestructible connector**

Our patch cords are equipped with an indestructible jack. This special design ensures that broken or damaged jacks are a thing of the past. You get durable, rugged connections that work reliably even with frequent reconnections.

## Wide range of colors for optimal organization:

To help you organize your cabling, our SLIM patch cords are available in a wide range of colors. This makes it easier to assign and manage your network cords, even in complex installations.

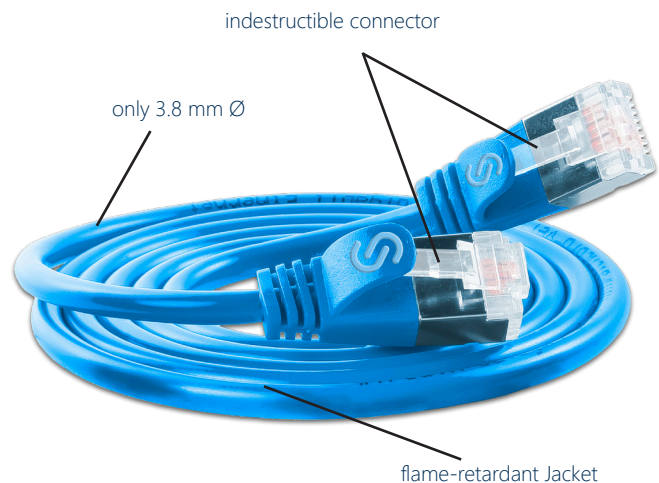

## Conclusion:

With the SLIM Patch Cord Multipack, you get not only a high-quality product, but also a solution that greatly simplifies the installation process. Save time, avoid unnecessary waste and enjoy maximum performance and flexibility in your network installation..

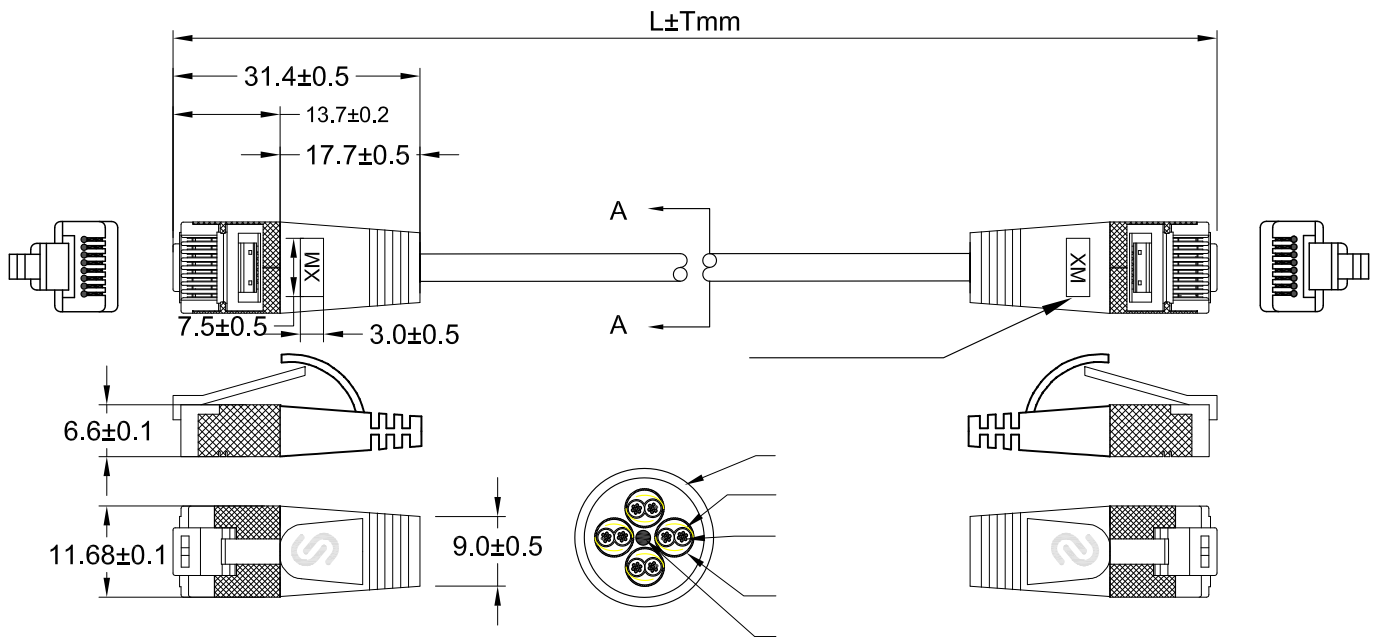

## DESCRIPTION

Category	CAT6A
Connector Type	RJ45
Boot	SLIM design, snap-on nose guard, Length specification
Assignment	1:1 TIA/EIA 568B
Shield	U/FTP shielded
Sheath	LSZH
Wires	AWG32 100% Copper
Diameter	3.8 mm
Temperature range	-20°C to +60°C
Standard colours	Gray, Yellow, Red, Green, Blue, Black, White
Packaging unit	Single Unit or Multipack
Standard lengths	0.1 / 0.25 / 0.5 / 1.0 / 1.5 / 2.0 / 3.0 / 5.0 / 7.0m
