

## CAT6A Patch Cordbox, yellow, S/FTP, 305 Meter

### DESCRIPTION

Wirewin® patch cables of category 6A comply with the values according to ISO / IEC 11801 Ed.2. This allows a data transfer of 10 GBit / s. Category 6A is specified with 500MHz. The cable for the patch cord assembling is double shielded. Each pair is in its own foil shielding and above is again a braid shielding. This structure is often referred to as PIMF (pairs in metal foil / pairs in metal foil) or as S / FTP. The jacket of these cables is made of halogen-free material and therefore is flame-resistant.

### FEATURES

- Category 6A patchcable
- Stranded Cable for Patchcord Assembling
- Shield: S/FTP shielded
- 4- pairs twisted
- Wires: AWG26 100% copper
- Coating: LSZH
